Experience

Systems Developer (Co-op), HOOPP (Healthcare of Ontario Pension Plan)

May 2025 – Dec 2025 · Toronto, ON

- Automated weekly quota monitoring for about 4,000 Exchange mailboxes using PowerShell, alerting the team at 80% capacity. Migrated the solution from Azure Functions to Azure Automation after repeated execution timeouts. It was still in production in October 2026, 10 months after my term ended.
- Automated the final step of RingCentral phone provisioning with PowerShell and Selenium, linking phones to Microsoft Teams. Deployed the script to an Azure Automation Hybrid Worker with step-by-step screenshot debugging.
- Established RingCentral API access for a department for the first time, configuring custom roles and a JWT-authenticated service account with call-log access for integration with Azure Data Factory.
- Developed a reusable Microsoft Graph app-registration validation function to verify shared credentials without triggering dependent onboarding, offboarding, or licensing automations. Renewed client secrets one automation at a time, because each stored its secret differently.
- Delivered onboarding, offboarding, licensing, and telephony automation changes through 2-week Agile sprints, contributing to Azure DevOps tickets, pull requests, code reviews, testing, and deployments. Adapted Azure Pipelines YAML for new automations, deployed through dev and production approval steps.
- Built a PnP PowerShell permission report covering about 5,000 SharePoint files and folders after HR raised concerns about pay-stub confidentiality. Combined it with access testing to confirm that users granted Limited Access could not open the files, which closed the question.
- Partnered with a senior engineer to restrict third-party Outlook and Teams add-ins in two phases: blocking new installations and removing existing ones. Researched and tested the approach, then presented the ServiceNow change request for approval before production deployment.
- Administered Exchange hybrid, SharePoint, Power Platform, Microsoft Teams Rooms, and RingCentral services for about 3,000 users, resolving more than 300 support tickets over 8 months.

Ship Pilot, Oceanpact (subsea operations) and Starnav (cargo operations)

Feb 2019 – Mar 2024 · Rio de Janeiro, Brazil

- Automated regulatory compliance tasks with PowerShell scripts.
- Operated the Dynamic Positioning system during subsea operations, and led emergency drills with 100% compliance in safety audits.

Projects

Casa Escala

Shift-rotation matcher for offshore crews · **casaescala.me**

- Go web app that ranks the dates that work best for a group to meet, from each member’s work rotation. 92 users as of October 2026.
- Server-rendered pages with htmx, SQLite, Google OAuth and email sign-in.
- About 480 tests against a real database, CI on GitHub Actions, deployed to a VPS with Caddy, systemd and Litestream backups for under $10 a month.

Jellyfin Home Server

github.com/dandutra/jellyfin-home-server

- Hardened Windows 11 media server with low-privilege services, a VPN kill switch and LAN-only key-based SSH.
- 11 decision records, 8 incident write-ups, and CI with shellcheck, PSScriptAnalyzer and gitleaks.

Skills

- **Languages:** Go, JavaScript, PowerShell, Bash, SQL, C, C++
- **Back-end and data:** HTTP servers in Go, Node.js, Express, REST APIs, SQLite, Oracle, OAuth 2.0, JWT
- **Front-end:** HTML, CSS, JavaScript, htmx
- **Cloud and ops:** Azure Functions, Azure Automation, Azure Key Vault, Application Insights, Microsoft Graph, Exchange Online, SharePoint, Microsoft 365 administration, Linux (systemd, ufw), Caddy, Cloudflare, Windows administration
- **Tools:** Git, GitHub Actions, Azure DevOps, Azure Pipelines, Jenkins, Selenium, PnP PowerShell, ServiceNow, Claude Code, Copilot Studio

Education

Diploma, Computer Programming, Seneca Polytechnic

Expected Dec 2026 · Toronto, ON

President’s Honour List, Summer 2024 and Fall 2024.

B.S. Nautical Sciences, EFOMM (Merchant Marine Officers School)

Feb 2014 – Jan 2019 · Rio de Janeiro, Brazil

Leadership & Volunteering

Peer Mentor, Seneca Peer Mentoring

May 2026 – Aug 2026

- Guided 6 new students to college resources such as career fairs, and helped them choose program paths and manage their time, about 3 hours a week.
